When Same Sex Couples Split

In Texas, same sex married couples are entitled to the same legal rights, benefits, and responsibilities as different sex married couples. And even if the same sex couple never legally married, assets still have to get divided when the parties go their separate ways.

Few lenders understand the correct use of an Owelty Lien to "buy out" an ex partner's equity in a residential property. Let me put my divorce lending expertise to work for you! Involve me early in the process to get an impartial fair market value of the home. I'll give you an action plan to use in conjunction with mediation or to work through on your own as you negotiate the breakup.

We don't have to hurt one side to help the other.

mortgage loan officer, divorce lending specialist
NMLS #409893
